

ANIMAL COMMUNICATION Classes 1 and 2

With Laurie Reyon, Master Cat Puddah, and SamuEL

**DO YOU KNOW WHAT YOUR ANIMALS
ARE SAYING TO YOU?**

**DO YOU WANT TO DEVELOP YOUR TECHNIQUE TO
COMMUNICATE WITH ANIMALS?**

**On Sun, Oct 13, We are teaching a basic Animal
Communication Class 1 for everyone.**

On, Sun, Oct 20, We are teaching a second class 2 for further skills in mastering Animal Communication and learning how to do a body scan for your animal friends.

I have been teaching Animal Communication now for almost 20 years. Many people have learned the basic skills needed to open to Animal Communication while working with us. Everyone has the skills needed to do this, but everyone does not take the time to open their hearts and practice with other animals to hone their skills.

Come join us for one or both of our Animal Communication Classes in October! They are informative and fun! There is no substitute for practice and the energy of a group provides considerable support for everyone.

Talking with animals is an exercise in self-love, as you get to exercise your ability to believe in your gifts to be telepathic. It is an exercise in faith, well worth pursuing and we hope you will answer the calling in your heart to join us!

In Class 2 we will go deeper with processes and also teach a body scan or gestalt technique for those that are wanting to work with their medical intuitive abilities with animals. It can be very useful when there are health issues.

We will work with your 3rd Eye or Pineal gland to help you connect to your heart to receive more detailed telepathic communication from the animals. Everyone can do this with some practice and support. You just have to trust yourself.

In our world, the Animals communicate through frequencies that are non-verbal or telepathic. Once you connect to this form of communication, you will receive their transmissions, wisdom, and humor. They are all anxious to talk with you!

All humans HAVE this GIFT when they are born. We will help you remember how to activate and use your gifts so you can communicate with animals.

In this workshop we will present techniques to communicate telepathically with your Animal companions that surround you and serve you.

We believe that the Animals are the greater body of physical teachers and healers on our planet. They exist as representatives of Love and Service to humanity and to the Earth.

We can discuss health issues and explore their behavior. All questions and communications are welcome.

The premise will be to really tap into the Soul of each animal who is called on. Every class will offer an opportunity to talk with YOUR animals.

Communication with Animals becomes available to everyone when they begin living and creating from their hearts.

We have taught thousands of people over the years to reclaim their gifts to communicate telepathically.

Come play with Laurie Reyon and her two amazing Cat teachers. Meet Master Cat Puddah & SamuEL

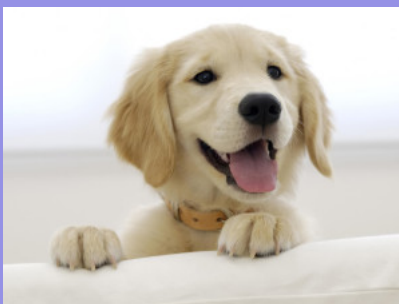

They will help guide you on a personal journey into consciousness that you can hear!

Imagine the possibilities in your life and the changes you can make when you actively begin to communicate with the Animals in your Life!

Each person can introduce up to 3 animals with a picture of their face. They can be living or those that have transitioned.
