**EAGLE/CONDOR:** The great archetype of the East, the place of the rising Sun, the place of our Becoming --vision of clarity and beauty, the great wings of the condor hold the heart, – the One who pushes us out of the nest to spread our own wings so that we may always fly wing to wing with the Great Spirit.

### The POWER ANIMALS carry SPIRIT MEDICINE

They can assist us with New Codes of Creation in our DNA and calibrate them within us.

They can offer us powerful HEALING ATTUNEMENTS that will further activate our abilities to communicate and understand them.

The POWER ANIMALS will each offer us an INITIATION to CONNECT to their ENERGY.

Their ATTUNEMENTS will assist us in developing a New Architecture within our Physical Forms and Light Bodies (or Merkaba).

### POWER ANIMALS

Power Animals are the Soul of the Mother Earth or Pachamama. The word animal comes from anima, the word for Soul, meaning that animals are Sacred.

The Shamans work with four great Power Animals as representatives of the four directions: Serpent, Jaguar, Hummingbird, and Condor/Eagle.

Power animals associated with the four cardinal directions of the Medicine Wheel can be seen as representing one of the four fundamental forces of nature. By physics, they are described as the forces of gravity, electromagnetism and the strong and the weak nuclear forces.

When we are in Right Relationship with the Animals, their Energy and Vibration

bring us into Right Relationship with nature, and our past, present, and future. Power Animals are Spirit helpers and allies that we can call on when we need assistance.

A Power Animal is born at the same time we are and brings us the gifts and attributes we have the potential to develop during our Lifetime.

During our lives, we can connect to many Power Animals that can bring us resources as we need them, or during particular times in our lives.

When we call for a Power Animal, Spirit answers and the animal that comes to us represents an instinctual part of ourselves that we may have become disconnected from.

---

Biologists also recognize that the poetry of life is written with an alphabet containing only four letters: the four letters or base pairs of DNA.

The only difference between the Shamanistic view and the physics and biological view is that Sages believe they can summon and interact with

these forces of nature, effectively communing with the biosphere. This is the REALM of the Power Animals.

**In this Workshop, we invite you to open your hearts to the MASTERY of the many POWER ANIMALS. Open to HOW they can come into your lives as you invite them in, and they begin to work with you to make significant, powerful, and transformational CHANGES in your personal life.**
