

- **WHITE WHALE INITIATIONS for PASSAGE Sept 2012**

We the Whales, through these Rites of Passage, we are further defining the emerging God Race of humans, as we demonstrate the most important characteristics of living in Global Harmony, Peace and 5th dimensional conscious living.

The Whale Rites of Passage are encoded and designed to assist those that desire to align with their true purpose and to lift everyone into expanded states of perception, no matter their current level of consciousness.

- There are those that are fully prepared to endure this quickened pace and realize a holy emergence. Others will participate in order to deepen certain understandings or to accelerate clearings and internal activations. It is working on all levels and dimensions.

The vibration of varying levels of consciousness, is contained within a higher vibrating group matrix. This can be raised to directly experience heightened levels of awareness. The KEY to integration is to remain within the group energy field in order for the subsequent quickening to properly stabilize.

We suggest that you remain connected to us as you are so guided, as you will benefit from the accelerated initiatory experiences that many are creating from their pure loving intention to connect to the Great White Whale Council.

Our progressive emergence as an enlightened group harmonic has high potential to ripple out through the Unified Field catalyzing a dynamic upshift in our level of unity consciousness thereby assisting many of the humans on their road to self-mastery.
