

# ALIGN WITH YOUR SOUL'S PURPOSE

**4 week Workshop - Thursday's in April  
April 2, 9, 16, and 23**

You need not be present to participate as the class is presented  
as a Zoom webinar and will be recorded.

**Do you ever wonder about the real reasons you incarnated in this lifetime?**

**I believe every single person is seeking the highest expression of themselves right now. Everyone is asking the important questions. Every person wants to live from their hearts and to make a bigger difference in their lives.**

**As a metaphysical teacher and a person who has developed my ability to speak with Spirit, the Angels and the animals, I can share that this is the TIME we have waited for to come into our full power.**

**It is never too late to find a way to become more of a Conscious Creator and make new choices. I am delighted to be of service to help those who really want to change.**

## **MAKING NEW CHOICES:**

**I feel that deciding whether to consciously grow and expand in your consciousness, and in your daily spiritual practice is no longer an option. The energy of the planet now is supporting our awakening. Every way you turn you can see the new potentials and many people choosing to raise their vibration.**

**Everything is vibration at any moment.**

**Consider taking some precious time to devote to your vibration and your deeper understanding and remembrance of who you really are.**

**You truly are the Creator of your own life and the Co-Creator of this world. Isn't it time to get some assistance with your own awakening? In doing so, you will heal your physical and emotional body and step onto a path of great joy and Service to the greater good.**

### **I invite you to ask yourself these questions:**

- **What devotional Spiritual practices am I committing to using every day to keep my vibration high?**
- **Do I want to discover ways where I can create more joy and fun in my**

**life every day? My Guides call this the "Fun Factor."**

- **Am I willing to take new steps to care for my physical body?**
- **Am I willing to claim a new and higher vibration where I can communicate with my Guides and Higher Self?**
- **Am I willing to make the time every day to directly connect with nature and Mother Earth?**

**Also know that whatever GIFTS you have activated, you can always increase and enhance them. Communication with Spirit and our 3 Master Guides is vital in my life. I can not even imagine what my life would be like if I could not ask them many questions each day, and then ask them to research something for me.**

**Helping YOU activate your 3rd Eye-Pineal Gland will be a priority in this workshop to help you achieve REAL and VALUABLE communication with your Guides and the Celestial realms.**

**This workshop is for 4 weeks, once a week. I believe that having this kind of support to learn and implement new processes over a month, can really help you make some powerful and significant changes. You deserve to take time to nurture yourself and honor the words self-love.**

**Did you know that science has proven that those who explore their lives and their spiritual paths, are happier and healthier than others? Science now points to the deeper truth that our consciousness, beliefs, and emotions are the primary factors in determining our health—rather than any predetermined biological**

**makeup. In this workshop we will explore the newly revealed truth about Epigenetics.**

**The new science is not only the key to understanding how and why you manifest all you do personally, it will also empower you to gain greater insight into and control over your health and happiness, in body and spirit.**

**We will help you remember that your Emotions are the Creative Force and getting back to the feeling state can only enhance your life!**

---

**Are you ready to move into SOLUTION ENERGY to more easily accomplish your goals and fulfill your dreams?**

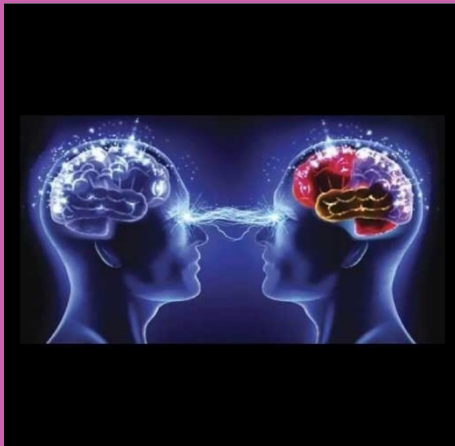

**Many teachings including Heart Math are teaching what I call the**

**“truth.” Learning and practicing the art of living and creating from the heart, will change everything in your life. We must return to the heart in all ways to live in joy!**

**For those that understand this we can go deeper into the small space of the heart and begin to create and manifest through visioning. We will teach several processes you can really use to change your life and offer you the support to understand them and use them.**

---

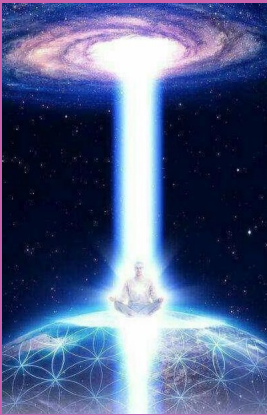

**Everyone can learn to communicate more clearly. This will be a primary focus for the 4 weeks of classes. Your Guides, your Spirit helpers, and your animal friends all want to communicate clearly with you. We will work with your personal ability to be telepathic and more clairsentient. Anyone can do it with help and practice!**

**Each week we will target an area where we can all grow and expand our consciousness. Through practice and your powerful intention we will help you change! Are you ready to raise your vibration?**
