

**INTER-SPECIES COMMUNICATION
With Animals
Saturday, August 29, 2020**

With Laurie Reyon, Master Cat Puddah, and SamuEL

**DO YOU WANT TO DEVELOP YOUR ABILITY TO
COMMUNICATE WITH ANIMALS?**

I have been teaching Animal Communication now for almost 20 years. Many people have activated the basic skills needed to open to Animal Communication while working with us. Everyone has the natural ability needed to do this, but everyone does not take the time to open their hearts and practice with other animals to hone their skills.

Come join us for our Inter-Species Communication Class #2! It will be informative and fun!

There is no substitute for practice and the energy of a group provides considerable support for everyone.

In June, many took this class and it was so much fun and so powerful, they asked for more! We will bring in MANY MORE species of different animals to commune with.

We will go into communication with the Group Consciousness of various species of animals. When we achieve this frequency a "Speaker" for a particular species of Animals will appear and speak for the Group. It is amazing! We will ask about Who they Really Are, beyond the animal body and why they are here to support us.

We will work with birds, seals, bears, guinea pigs, whales, panda bears, gorilla and monkeys, turtles, and rhinoceros.

We will work with your 3rd Eye or Pineal gland to help you connect to your heart to receive more detailed telepathic communication from the animals. Everyone can do this with some practice and support. You just have to trust yourself.

In our world, the Animals communicate through frequencies that are non-verbal or telepathic. Once you connect to this form of communication, you will receive their transmissions, wisdom, and humor. They are all anxious to talk with you!

All humans HAVE this GIFT when they are born. We will help you remember how to activate and use your gifts so you can communicate with animals.

We believe that the Animals are the greater body of physical teachers and healers on our planet. They exist as representatives of Love and Service to humanity and to the Earth.

Communication with Animals becomes available to everyone when they begin living and creating from their hearts.

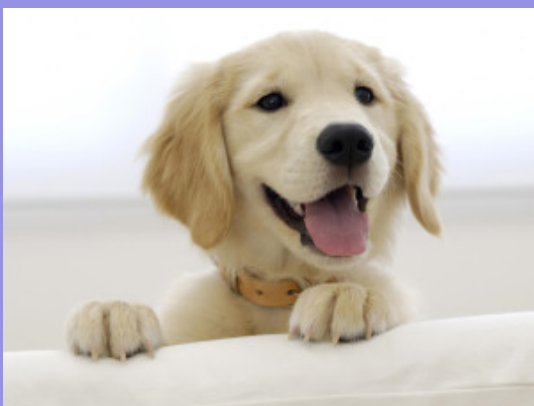

We have taught thousands of people over the years to reclaim their gifts to communicate telepathically.

Come play with Laurie Reyon and her two amazing Cat teachers. Meet Master Cat Puddah & SamuEL

They will help guide you on a personal journey into consciousness that you can hear!
