

COMMUNICATION WITH THE NATURE SPIRITS

WHO ARE THE ELEMENTALS?

**Saturday, November 11, 2023
Zoom Webinar - Replay is Included.**

**There are four groups of Nature Spirits known as the Elementals.
They are the Builders of Form, and they tend to the forces of Nature.**

**Tune to the Consciousness of
AIR, WATER, FIRE and EARTH.**

It is time to awaken and fully grasp the concept that every bit of grass, flower, tree, or animal has a Conscious Spirit that nurtures us and the Earth. Now more than ever, Nature Spirits need human assistance, as we do need theirs, to successfully undergo the deep transformation that is occurring on Planet Earth.

In this workshop we will access the consciousness of the Elemental Beings and ask to receive their Wisdom.

When you align and communicate with the Natural Laws of the Natural World, you will manifest with the assistance of the Elementals. You will be more effective, and you will find your vibration one of peace and harmony with All Beings.

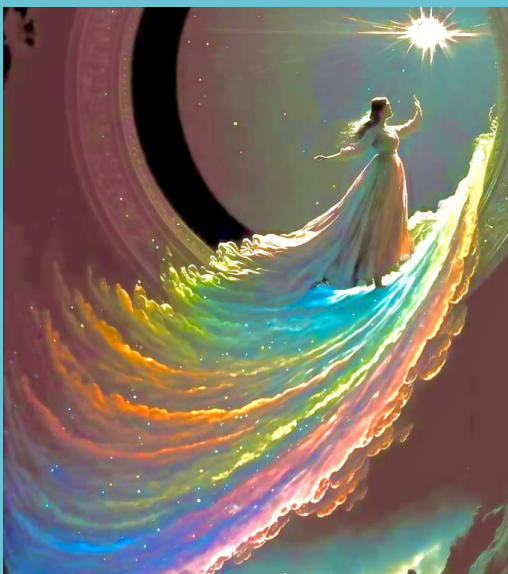

EARTH ELEMENTALS - Gnomes – Tending the Earth

The Nature Spirits who serve at the physical level are called Gnomes. Billions of Gnomes tend the earth through the cycles of the four seasons and see to it that all living things are supplied with their daily needs.

WATER ELEMENTALS - Undines – Guarding the Gardens of the Seas

The Elementals whose domain is the Water, are known as Undines. These beautiful, Mermaid-like Beings are subtle and swift in their movements and can change form rapidly. The Undines control the tides and have much to do with the climate as well as oxygenation and precipitation. The Undines cleanse not only the physical waters, but also that aspect of mankind's life that relates to the Water element—our emotional and subconscious world.

AIR ELEMENTALS - Sylphs – Aerating Life with the Sacred Breath

The Sylphs tend the Air element, directing the flow of air currents and atmospheric conditions. They purify the atmosphere and aerate every cell of life with the Sacred breath of Spirit. They are bearers of the life-sustaining prana that nourishes all living things. On subtle levels, the sylphs transmit the currents of the Spirit from heaven to Earth.

FIRE ELEMENTALS - Salamanders – Infusing Matter with the Fires of Creation

These Nature Spirits work with the Fire element and are called Salamanders. Their job is crucial, for they serve at the atomic level of all organic and inorganic life, infusing the molecules of matter with the Spiritual fires of creation. The Salamanders imbue the entire creation with the energies of the Spirit necessary to sustain life on earth.

Understanding and communication with the Nature Spirits is of the utmost importance in our evolution and expansion of consciousness.

The Elementals sustain our life force through the air we breathe, the food we eat, and the water we drink.

At the most basic level, we are utterly dependent on the selfless service of the Nature Spirits.
