SOUND HEALING

The Origin of Creation is Sound and Sacred Sound & Geometry. Sound can permeate all levels of our being, affecting every level of existence and even re-calibrating our DNA. For over 40,000 years, sound has been used for

healing because of its incredible effectiveness. In this amazing workshop, we will explore the healing POWER of SOUND in many varieties.

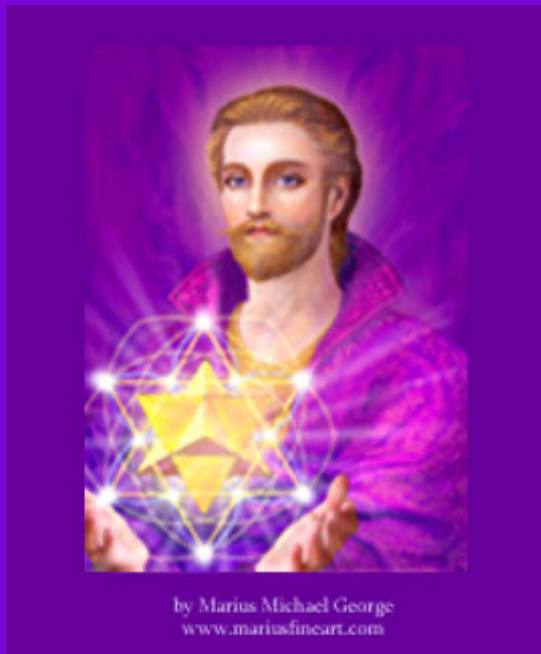

ANGELIC HEALING:

Every human is surrounded by teams of Angelic Beings. The Angels want very much to connect to you and assist you, but they must be asked first because of your free will. We will help you learn how to summon the Angels to you and how to allow them to work on your body. There are many ranks and realms of Angels to access and we will open to their Divine powers and communications.

During the Course you will experience Channeling the Archangels and Summoning them for personal or group healing.

THE VIOLET FLAME

The VIOLET FLAME truly is the greatest gift Humanity now has to clear lower or negative energies from their lives. The Violet flame is the perfect balance of the in breath and the out breath of our Father-Mother God, and it is a force of unfathomable power. The Violet Flame is a POWERFUL & MAGICAL gift that can be used to transmute any and

all pain, negative thoughts or suffering of that you may be experiencing. We will teach you how to summon it in your daily life.

During the Course we will work personally with Ascended Master Saint Germaine and the Great Humpback Whales who carry the VIOLET FLAME.

WHALE HEALING AND CLEARING

The Whales and Dolphins are the most ancient and spiritually advanced Souls on our planet. They tell us that it is time to upgrade our systems and make a conscious quantum shift within our own operating systems. These Energy Medicine Systems of pure potentiality can create an instant upgrade for you, offering deep core level healing. You may experience an accelerated change, growth and a deeper connection to your Soul. The processes will assist you in moving into higher states of consciousness and in raising your vibration. The Dolphin and Whale Energy Medicine creates a Crystalline Matrix in the human form, activating dormant DNA and allowing the human to carry more light, thus preparing them for Ascension.

DOLPHIN DNA HEALING & CALIBRATION

The Dolphins have shared with me that they are the designated **KEEPERS** of the human DNA template system. They receive infusions of DNA activations through the earth's ocean systems from Creator. It is their given task to process this information internally and calibrate the actual DNA that is perfect and right for each person. The Dolphins have given us healing templates to connect to and re-activate all 12 strands of Human DNA. We will share a Dolphin DNA template with everyone for activating your own dormant DNA.

Learn about the 12 Strands of DNA and how you can Summon the **DOLPHIN ENERGY** to calibrate & align your DNA.

PLEIADIAN TONING TECHNIQUES from the LEMURIAN CHOIR

Experience hearing and singing some of the original Pineal Tones from the Pleiadian Celebration Choir in Maui in 2012 under

Dr Todd Ovokaitys. The tones are healing and activate your intuition and expand your vibration. Some of the benefits of the tones are to amplify your personal gifts and abilities. Also, to tap into higher dimensional attributes, open your awareness, and to experience personal transformation.

Learn **MORE PINEAL LEMURIAN TONING** from the **ORIGINAL CHOIR** with Dr Todd. Wonderful for healing and balancing your body.

LIGHT LANGUAGE

Marvel at the resonance of listening to **LIGHT LANGUAGE**. Many people are channeling Light Language at this time as their vibrations expand and they intuitively remember that they have done this before. Light Language is multidimensional language that is understood by all on a soul level. It is channeled Dynamic Frequency Encodings of Sound and Light. It adjusts to the resonance of each person's vibrational needs in the moment; initiating clearing, balancing, activation, and alignment with a new vibration of Wellbeing. It is sometimes called the language of the heart.

ANDARA CRYSTAL HEALING

Andara crystals are rare and only found in two locations in the world. They are helio-centric and monoatomic, meaning comprised of primal matter. They encompass galactic and cosmic frequencies that are superior vibrationally. They dramatically expand sensory perception and allow you access to information beyond normal 3rd Dimensional channels. Your intuition expands, telepathic connections are increased, and your connection to your Divine Higher Self is strengthened. Many people experience the release

of unwanted energies which allows for a unique and deep healing experience. In this class we will instruct you on how to use them as powerful healing partners.
